Engineer Programmer

Mid-level (2-4 years experience)

Working (Hit me with offer) | Lithuania

Sector Background

Not Specified,
Production, Games
Development,
Technology Startup

Preferences

Location

European Union only

Current status

Working (Hit me with
offer) (Updated: 3 hours
ago)

Personal Statement

I am adaptable. Why is that so important? Because everthing I start, I try to do my best at it. How is it going? Perfectly! As you can see from my experiace, I have some different kind of jobs. Most of them were my summer jobs, but all the employers were satisfied with my work that I have done with such a short time.
I am Electronics engineer. What does it mean? It means I am strong at electronics and programming. But now specialize at programming mostly. It is my passion and I will keep improving myself at it.

Skill Stack

MORE		C++	
Microsoft Office 3-4 years		Embedded C 2-3 years
