savaitę)

Personal Statement

I have a passion for business management systems (ERP) and business process optimization using IT tools. Mainly I was working with Microsoft Dynamics. I can quickly learn new things or methods if I need them to achieve or to do something. I am always trying to find the most efficient way to do the hard and complex tasks. I am very accurate working with numbers and data. Able to work under complex circumstances with same efficiency and optimism. Friendly and nice person for colleagues and others to work with. Always doing my best at work!
