Description:

We are a part of an organization, which delivers world-class digital financial solutions to customers. We have an understanding that the current change is technology-driven, and we prioritize IT as a key component for success in our journey to drive digital disruption in the bank. Our teams work with complex tech challenges and develop Danske Bank's global competitive edge on innovative digital solutions. Teams are autonomous and has cross-functional expertise, with a product owner prioritizing tasks and developers as well as analysts to implement them.

Consultant will become a part of the team in Anti Money Laundering (AML) program that has several initiatives in Danske Bank group. The overall purpose of the initiative is to strengthen AML efforts in the bank. Current project is seeking a contractor to speed up the deliveries for developed solutions in various business segments.

Consultant will report and adhere to tasks of dedicated the project manager.

Responsibilities

Contractors will be part of a global squad, and will be based in Vilnius, Lithuania (home-office during covid).

Participate in Scrum ceremonies, daily development tasks and progress of the area for the Squad to succeed this year in delivering IT solutions to the AML program
