Description:

Flinke Folk is a company located in Stavanger - Norway, Klaipėda - Lithuania and New Orleans - USA. We develop customized software for supporting the various aspects of the Oil and Gas industry operations. Several of our applications are now used by the 5th largest company in the World - Royal Dutch Shell - globally.

We are looking for a DevOps Engineer who will help us by setting-up automated deployment and monitoring systems and organising classic datacenter replacement with a modern hybrid cloud solution.

You will be given challenges and freedom solve them in cooperation with the team.
