Description:

Exacaster is looking for an experienced **Full Stack Developer** to join the team! It's a great opportunity for experienced developers willing to increase their knowledge about Big Data and explore challenges of Analytical/AI SaaS product development.

You will work with one of the largest big-data environments in the Baltics where we personalize offers for 40+ million consumers on a daily basis for the clients in the EU, USA, Central and South America.

What projects are waiting for you right now?

- You will strengthen the Retail & E-commerce Solutions team consisting of Data Scientists and will help them solve the engineering challenges related to providing personalization solutions at scale;
- You will work in an autonomous team directing its own work, in a friendly yet challenging atmosphere.

What do we expect from you?

- At least 3 years of experience in programming frontend to backend;
- Bachelor's/Master's Degree in Computer Science, Computer Engineering or a related field;
- Solid **Python** or **Java** knowledge;

- Initiative and thirst for more knowledge;
- Good communication & teamwork skills.

Bonus points if you:

- Have good working knowledge of SQL, HTML, Javascript, Git and modern software development practices;
- Have extensive experience in functional programming;
- Have experience with Big Data or Machine learning projects, microservices architecture;
- Have experience with e-commerce;
- Have experience in automated testing, containerized deployment and API development.

We promise:

- Diverse and exciting challenges;
- All the support that you need from our experienced team to become an even better professional;
- A fair salary that matches your knowledge and experience with bonuses based on performance;
- Personal learning budget that you can spend to upgrade yourself even more, plus an experienced mentor;
- Every second Friday free time dedicated to fun, experiments and trying new things;
- An opportunity to reinvent how personalization works;
- The most cozy office in the heart of Vilnius;
- And the most important thing – super smart & crazy team!

Let's have a talk over a coffee. :) Send us an email with your LinkedIn profile or CV to cv@exacaster.com.
