Full Stack JavaScript Developer (React.js+Node.js) | Contract

HITCONTRACT

Lietuva

Aprašymas:

We create powerful, beautiful, and intuitive digital products. We don't blindly follow trends. We take our understanding of the latest technologies and build the best solutions for our enterprise clients. We're big believers in collaboration across engineering, UX, and product teams. We combine our individual expertise to solve complex challenges.

About the project:

Our created platform is used by Top companies to accelerate financial and regulatory reporting. This includes powerful online content management functionality, the ability to perform XBRL tagging, the capability to import and export data models, ability to file tagged artifacts to U.S. Securities and Exchange Commission (SEC).

We seek team members who care about results and are not afraid of taking ownership.

We're looking for a full-stack JavaScript developer

Requirements:

- Experience with JavaScript/TypeScript (at least 3 years);
- Experience with React.js (at least 3 years);
- Experience building backend services with Node.js;
- SQL/NOSQL database experience.

Project duration: Minimum 9 months (with possible extension).
