Aprašymas:

Are you interested in working with the latest frontend, backend and cloud technology to build an innovative, secure and robust customer portal? Then come and join our team! Our portal integrates customer management, our state of the art software protection technologies and threat analytics. There will be opportunities to use and learn the latest frontend frameworks, AWS services, data processing and visualisation techniques.

As a JavaScript Engineer, you will be working within the existing portal team in Vilnius following a well managed agile / scrum methodology. Releases are frequent and you will bring your innovation, dedication and problem solving to a wide range of problems whilst keeping security and flawless customer experience at the forefront.

Although based in Lithuania, you will be working as part of a global team and therefore it may occasionally be necessary to travel to the US or the UK.

Position responsibilities will include:

- Develop software as part of a dedicated team
- Ensure a focus on quality and security

Qualifications

- Applicants must possess the following skills and attributes:Very good proficiency with spoken and written English
- 2+ years of hands on JavaScript development
- Experience of at least one JavaScript frontend framework
- Experience of writing REST API's in JavaScript
- Experience of Node.js
- Experience with databases (PostgreSQL, MySQL, etc)
- Experience delivering complex projects with critical business impact
- A collaborative working style, and the ability to work with other team members, company stakeholders, and customers
- Self-motivated, with the ability to accomplish tasks with minimal guidance
- Attention to detail
- Strong diagnostic, problem solving and communications skills

Useful skills and experience:

- Experience of React.js
- Experience of Amazon Web Services
- Experience working with version control systems (Git, Subversion, etc)
- Experience working with the Atlassian tool suite
- Bachelor's degree in Computer Science or related field

Reikalinga Patirtis
