Description:

The Challenge

By joining our team, you will work along with a team of PHP developers on improving and expanding the platform which has the ambition to become the market leader in the Dutch mobile market. The perfect applicant for this position should be experienced in designing and developing for high transaction volume platforms with a low fault margin and high-availability.

What you need to succeed

- At least 3+ years of PHP programming experience (PHP 5 or higher)
- Experience with the MVC model (Preferably experience with Zend)
- Proficiency in JavaScript and popular frameworks (preferably Vue.js)
- Familiar with CentOS
- Familiar with PostgreSQL
- Good English skills
- Focus on quality and structural solutions
- Love to be in a team and gain/share knowledge with the different level of developers

We offer

- Opportunity to gain knowledge in an experienced international company and with already high-

performing experienced development teams

- Clearly defined requirement process in projects
- Conditions for skill improvements by attending conferences and complying technological certificates
- Competitive salary
- Liberal and result-oriented approach to work
- Positive, energizing and fun environment
- Xbox Kinect game breaks, free snacks, lunch on Fridays, Staff parties and much more
