Description:

Danske Bank is a part of an organization, which delivers world-class digital financial solutions to customers. They have an understanding that the current change is Technology-driven, and they prioritize IT as a key component for success in their journey to drive digital disruption in the bank. Their teams work with complex tech challenges and develop Danske Bank's global competitive edge on innovative digital solutions. Teams are driven by job content, share ownership of strategic services, own service strategy and lead improvement. One more important feature – senior leadership is present on site.

About the role:

You will become a part of the team in Anti Money Laundering (AML) development program that has several initiatives in Danske Bank group. The overall purpose of the initiative is to strengthen AML efforts in the bank. Current project is seeking a contractor to speed up the deliveries for developed solutions in various business segments.

You will report and adhere to tasks of dedicated the project manager.

Responsibilities:

• Contractors will be part of a global squad, and you will be based in Vilnius, Lithuania (home-office during covid).

• Participate in Scrum ceremonies, daily development tasks and progress of the area for the Squad to succeed this year in delivering IT solutions to the AML program

Requirements:

• .NET/C# developer with mid-level experience -- as a minimum 3 years of experience and proven track record

• Experience in working in agile setup, ideally scrum-based.

• Experience in solution architecture, design, application development and systems integration

• Experience working with web APIs

• Experience working with distributed systems is a benefit

• Experience with the following technologies is a benefit; Openshift, AzureDevOps, .NET Core and newer, RabbitMQ, and other cloud native technologies.

Company Offers:

• An inspiring environment in a large IT organization

• Work in an international team, which concentrates on innovative business facing solutions

• An extensive training program to ensure that your skills are maintained and updated on an ongoing basis
