Aprašymas:

Simplanova is a young and energetic company with ambitious goals, a well-established leader in the niche of the international Microsoft Dynamics market. The company values simplicity, good planning and innovation therefore every employee's initiative, interest in the latest technological advancements and attempts to apply them in practice are very welcome here. If you are ambitious and want your ideas to get heard, join Simplanova as .NET developer and form its future together!

You, as .NET developer will have possibilities to:

- Join a team of developers who enjoy building quality tools
- Work in a scrum-based environment

1. Where open communication and your ideas are valued
2. Where documentation is not our main priority
3. Where we take care of what's important for a client and not strictly follow the plan

- Have an impact on application architecture/design and functionality
- Learn and implement best coding practices such as but not limited to TDD clear code or DDD.

We offer:

- Working on a project which will make a huge difference both internally and for our international clients;
- Technologies we use: .Net Core/Azure or anything you want to add
- Competitive and motivating salary: 1,600 – 3,700 EUR/month gross, depending on your skills and experience;
- Flexible work hours (ability to work from home);
- Foosball breaks, refreshments, adjustable height tables;
- Unforgettable company events;
- Company funding for taking skill certifications;
- International project experience;
- Friendly and supportive teammates working together in an agile environment;
- Cozy and modern office.

It would be nice if you have prior experience with:

- .NET experience (1-7 years),
- OOP
- Test framework such as NUnit or XUnit;
- Project management tool knowledge (Azure DevOps, JIRA or similar);
- Experience with ERP systems (especially Dynamics NAV);
- Parser knowledge;
