QA Automation Engineer (Application Protection for JavaScript)

UAB Arxan Technologies

www.digital.ai

Vilnius, Lithuania

Description:

About Us

This position is an exciting opportunity to join the Arxan division of Digital.ai. We are an application security industry leader with a diverse product line specializing in protecting the client-side applications.

What You Will Be Doing

We are looking for a well-motivated QA engineer with a passion for technology and learning to join our office in Vilnius.

As a QA Automation Engineer, you will join an existing team developing state of the art software protection technologies to protect web and mobile apps from reverse engineering and tampering. We are a well-integrated global team, so there will be plenty of scope for career development and the opportunity to work on other products.

Key Responsibilities

- Write and execute test cases for new features
- Work closely with developers on test automation
- Continuously improve testing process and product quality

What We Are Looking For

Applicants must possess the following skills and attributes:

- Bachelor's degree in Computer Science or equivalent
- 2+ years' experience working in software product development or QA
- Very good proficiency with spoken and written English
- Experience with automation using a scripting language such as Python
- Working knowledge of Linux or a similar OS

Desired Skills/Experience

- Knowledge of JavaScript
- Familiarity with Agile/Scrum software development practices
- Experience with test case management tools such as TestRail
- Experience with Continuous Integration systems such as Jenkins
- Experience with source code management systems such as Git

We Offer

- Opportunity to work in an international company
- Unique and interesting challenges in the security field
- Informal work environment, either in the office or remote
- Competitive salary and potential for performance-based bonuses
- Team building and other unifying events
- Team meals and snacks in the office
- Private health insurance

For this position we offer gross salary 2600 - 4000 EUR/month depending on the level of experience.

Digital.ai is firmly committed to Equal Employment Opportunity (EEO). We maintain compliance with federal, state, and local laws that prohibit employment discrimination on the basis of age, race, color, gender, identity, gender expression, sex, pregnancy, national origin, ancestry, religion, physical or mental ability, medical condition, sexual orientation, marital status, citizenship status, protected military or veteran status, and all other protected classifications. We welcome everyone and believe that diversity is the foundation of innovation.
