Aprašymas:

SDK.finance, a European-based core payment platform serving clients across the globe is looking for talents! We need a QA Engineer to help us maintain and test our product. Want to shape the digital payment future with us?

Required skills:

- Experience at least 2 years;
- Knowledge of SDLC;
- Strong knowledge of bug lifecycle, understanding of its impact on the system;
- Understanding of Testing methods and methodologies and differences;
- Knowledge of test design techniques. The ability to put them into practice;
- Understanding the work principles of the bug tracking systems;
- Work experience with API services;
- Experience in managing test documentation;
- Mobile testing experience;
- Understanding Agile Development Techniques;
- Basic knowledge of Linux commands

- Good communication skills;
- Level of English intermediate

As a plus:

- Automation experience.

Responsibilities:

- Design and development of Test Cases;
 - Creating maintainable test artifacts also traceable to requirements;
 - Ensuring all development tasks meet quality criteria through the test;
- planning, test execution, quality assurance, and issue tracking;
- Contributing toward predictable delivery of quality release.
