Aprašymas:

Our vision is to provide simple, affordable and convenient access to contact lenses for all people. We build and connect infrastructures for access to contact lenses. We are a technology driven company that is building the next generation technology and processes for the optics industry. We believe in headless ecommerce and microservice architectures. Our technology has been used in major countries in Europe and we are looking for you to contribute to it.

We offer

- Professional team consisting of many seniors
- Very good working atmosphere with flat hierarchies
- An agile interdisciplinary team working on challenging digital topics
- A modern office in the center of Kaunas incl. parking
- Modern equipment (Macbook Pro)
- Opportunities to visit conventions and trainings - we want you to grow with us

Our tech stack

Php8, Symfony 5 & Sylius, Vue.js, Unit & acceptance testing, Docker, GitLab CI/CD pipeline

Your task

As a senior PHP Symfony Developer you will work on our core infrastructure. Your duties are:

- Collaboration with the product owner and other developers to create product strategies and visions
- Simplify and innovate complex business logic
- Translate business requirements and logic to Symfony microservices
- Use documentation and test driven development to ensure a stable product
- Close cooperation with the local and remote development team

Your profile

- Several years of professional experience as Symfony developer
- You are passionate about code quality, code coverage and code architecture
- You have experience with microservices
- You are from Lithuania and want to work in our modern Kaunas office
- Good knowledge and use of English
- Proven patterns - You follow best practices to build solid infrastructure
- Good communication skills, autonomy, assertiveness and ability to work in teams

Reikalinga Patirtis
