Description:

What We'll Bring:

Do you enjoy being surrounded and collaborating with like-minded and talented people who have a passion to innovate? TransUnion provides innovative solutions that help ordinary people and businesses create economic opportunity and personal empowerment for hundreds of millions of people in more than 30 countries. So if you want to join a growing, inspiring and forward thinking business, come, join your new team here at TransUnion Lithuania!

What You'll Bring:

- 5+ years of relevant work experience in software development area
- Experience in Microsoft .NET technologies, Design patterns, OOP, C# and common libraries
- Knowledge of Powershell
- Experience with relational databases (MSSQL)
- Excellent problem-solving skills to identify root cause and permanent resolution
- Huge passion for software development and best

practices

- Team player mentality
- Communication in English, at least equivalent to B1

Nice to have requirements:

- Experience with ASP.NET Core
- Knowledge of CI/CD
- Knowledge of best practices (Design Patterns, SOLID, TDD, DDD, YAGNI, DRY, KISS)
- Knowledge of Entity Framework Core
- Experience with Octopus Deploy, Azure Pipelines, SonarQube, Fortify
- Knowledge of Agile methodologies
- Experience writing automated tests (unit, integration, functional)
- Good understanding of either: xUnit, NUnit or MSTest
- Ability to write functional tests
- Familiar with Service Fabric
- Coaching and mentoring skills
- Continuous improvement mentality

Impact You'll Make:

As team player you will participate in Agile development processes: sprint planning, task refinement, SDLC, retrospectives, knowledge share in team and communities.

The focus of the role will be maintaining and developing high-quality TransUnion products roadmaps. Also preparing existing products for migrating into Azure cloud.

The tech

At TransUnion we have a wide range of technology in play such as **Microsoft .Net, Microsoft SQL server**, some older technologies that we are refactoring out – constantly improving products for the move to **Azure/AWS cloud**. Additionally, you will get a chance to work with **Restful APIs, .net Core**,

OctopusDeploy, Powershell.

What You'll Get:

- Experienced and highly motivated team
- Well defined career growth path using a matrix of skills needed to move on to the next level
- Friendly, informal environment
- People willing to help each other out beyond direct responsibilities
- People-first mentality
- Inner Source communities of practice
- Opportunity to work with state-of-the-art technology and solutions
- Huge focus on delivery quality
- Health and Life insurance package and performance-based bonuses
- Dedicated training budget for professional improvement events and certifications
- Pluralsight and Linux Academy membership, regular Code Dojos, LinkedIn learning zone access
- Opportunity to participate in Zalgiris LKL and Euroleague basketball games in TU VIP Box
- Opportunity to participate in TransUnion Share purchase plan
- Flexible and remote working, work-life balance
- And other common market benefits
- The salary range for this position is **€3300- 5000** /mon. gross, depending upon experience.
