Aprašymas:

What We'll Bring:

Do you enjoy being surrounded and collaborating with like-minded and talented people who have a passion to innovate? TransUnion provides innovative solutions that help ordinary people and businesses create economic opportunity and personal empowerment for hundreds of millions of people in more than 30 countries. So if you want to join a growing, inspiring and forward thinking business, come, join your new team here at TransUnion Lithuania!

What You'll Bring:

- 5+ years of relevant work experience in software testing area
- Effective test design, test planning and scheduling capability
- API/Web service or relational database testing experience
- Experience in performance testing
- Knowledge of source control
- Communication in English, at least equivalent to

B1

- Coaching and mentoring skills

Nice to have requirements:

- Knowledge of test automation techniques and tools
- CI/CD pipelines basic understanding
- Microsoft .NET technologies, Microsoft SQL server
- Experience with IDE (VisualStudio)
- Testing in cloud
- Experience in security testing
- Experience in Agile development team
- Skills of taking initiative for improvements, identifying, and mitigating risks, problem solving

Impact You'll Make:

As team player you will participate in Agile development processes: sprint planning, task refinement, SDLC, retrospectives, knowledge share in team and communities. The focus of the role will be for ensuring the delivery of high-quality products roadmaps and services through the application of professional testing techniques, knowledge, and best practices. Also participating in preparation for migrating the existing products into Azure cloud.

We are looking for someone who has a passion for testing and has or willing to gain experience in test automation.

The tech

At TransUnion we have a wide range of technology in play such as **Microsoft .Net, Microsoft SQL server**, some older technologies that we are refactoring out – constantly improving products for the move to **AWS/Azure cloud**. Additionally, we are using these testing tools: **Behat, Selenium, SpecFlow, Postman, JMeter**.

What You'll Get:

- Mature and highly motivated team
- Well defined career growth path using a matrix of skills needed to move on to the next level
- Friendly, informal environment
- People willing to help each other out beyond direct responsibilities
- People-first mentality
- Inner Source communities of practice
- Opportunity to work with state-of-the-art technology and solutions
- Huge focus on delivery quality
- Health and Life insurance package and performance-based bonuses
- Dedicated training budget for professional improvement events and certifications
- Pluralsight and Linux Academy membership, regular Code Dojos, LinkedIn Learning zone access
- Opportunity to participate in Zalgiris LKL and Euroleague basketball games in TU VIP Box
- Opportunity to participate in TransUnion Share purchase plan
- Flexible and remote working, work-life balance
- And other common market benefits
- The salary range for this position is **€3000- 4200** /mon. gross, depending upon experience.
